/*string with pointer*/

```c
#include<stdio.h>
int main()
{
        char x[]="aliah";
        char t[50];
        char *p=&x[2];
        char *q=t;
        printf("%c",*(p+2));
        return 0;
}
```
